ALLOY WHEELS

VOLKSWAGEN BAYWINDOW T2 DAYVAN, 1973/L. Finished in Primrose yellow with beige and white check interior and Egyptian Cotton soft furnishings. 87,000 miles, fitted with a 2.0 engine and a 4 speed manual gearbox, imported from Australia in 2009. This is a genuine factory window van, and is fitted with a rock+roll bed, matching curtains, ground sheet and Keyam drive away awning, luggage rack, Empei alloy wheels. Webber twin choke carb conversion. I have some paperwork and old mot's, including the current mot until September 2018. But as this is now 45 years old and according to the new rules, 'Matilda' does qualify as being Tax and MOT exempt! I also have 2 keys, a few spare parts, and the original VW 'birth certificate'. Condition is good, has been dry stored for the last few years, I believe it has under gone a refurb at some point since 2009. ?, £14,990
